STEM

- ❑ **Science:**
 - Advanced Research Methods

Science Research Program

Grade 10	Grade 11	Grade 12
Introduction to Science Research Methods Honors	Intermediate Science Research Methods Honors	Advanced Science Research Methods*

The Science Research Program at Livingston High School is a three-year sequence of courses that starts with **Introduction to Research Methods Honors** in the 10th grade. This is an application-only program.

* Because of the level of advanced research conducted, this course will receive AP weighting when grades are calculated.
