

## 2430 CO-CURRICULAR ACTIVITIES (M)

The Board of Education believes that the goals and objectives of this district are best achieved by a diversity of learning experiences, some of which are more appropriately conducted outside the regular instructional program of the school. The purpose of such co-curricular activities shall be to develop leadership capacities and good organizational skills, to aid in the socialization of students, and to enable students to explore a wider range of individual interests than might be available in the regular curricular program.

The Board shall make school facilities, supplies, and equipment available and assign staff members for the support of a program of co-curricular activities for students in grades 6 through 12. Students may be required to provide supplies and students may be required to assume all of the costs of travel and attendance to co-curricular activities and competitions. If any additional costs are to be assumed by the Board of Education, they will be supplemental to those funds raised by the attending group and will not be derived from any taxpayer monies (i.e., may come from student activity funds or vending proceeds). The Board of Education may assist in funding fees and registration costs or travel for local competitions. ~~However, the Board will not subsidize any overnight travel.~~

For purposes of this policy, co-curricular activities are those activities conducted on or off school premises by clubs, associations, and organizations of students sponsored by the Board and do not include interscholastic or intramural athletic competitions and practices (Policy #2431). Co-curricular activities must be related to the curriculum.

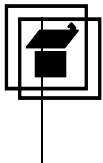

No group of students, regardless of the size of the group, will be denied an opportunity to meet on the basis of the religious, political, philosophical, or other content at their meeting. No co-curricular activity shall be considered to be under the sponsorship of this Board unless it has been approved by the Board on recommendation of the Superintendent.

Students shall be fully informed of the co-curricular activities available to them and of the eligibility standards established for participation in co-curricular activities.

The Board will not permit the organization of a fraternity, sorority, or secret society.
