

3212 ATTENDANCE (M)

The regular and prompt attendance of teaching staff members is an essential element in the efficient operation of the school district and the effective conduct of the educational program. Because absenteeism exacts a high cost in the depletion of district resources and in the disruption of the educational program, the Board of Education is vitally interested in the attendance of each employee and considers conscientious attendance an important criterion of satisfactory job performance.

The privilege of district employment imposes on each teaching staff member the responsibility to be on the job on time every scheduled working day. This responsibility requires that the employee maintain good health standards, take intelligent precautions against accidents, both on and off the job, and manage his/her personal affairs to avoid conflict with district responsibilities.

A teaching staff member who fails to give prompt notice of an absence, misuses sick leave, fails to verify an absence in accordance with Board policy, falsifies the reason for an absence, is absent without authorization, is repeatedly tardy, or accumulates an excessive number of absences without good cause may be subject to discipline, which may include the withholding of one or subsequent salary increments and/or certification of tenure charges.

In accordance with N.J.S.A. 18A:30-1, sick leave is hereby defined to mean the absence from his or her post of duty of any such person because of personal disability due to illness or injury, or because he/she has been excluded from school by the school district's medical authorities due to a contagious disease or of being quarantined for such a disease in his/her immediate household. No teaching staff member will be discouraged from the prudent, necessary use of sick leave and any other leave provided for in the collective bargaining agreement negotiated with the member's majority representative, in an individual employment contract, or provided in the policies of the Board. In accordance with N.J.S.A. 18A:30-4, the Superintendent or Board of Education may require a physician's certificate to be filed with the Secretary of the Board in order to obtain sick leave.

The Superintendent, in consultation with administrative staff members, will review the rate of absence among the staff members. The review will include the collection and analysis of attendance data, the training of teaching staff members in their attendance responsibilities, and the counseling of teaching staff members for whom regular and prompt attendance is a problem.
