

# Student Activity Fees

The proposed 2025-2026 budget introduces a student activity fee built in as a revenue. This is a user fee that helps supplement our extra-curricular programs in order to keep programs during challenging budgetary times.

- The proposed fee structure is \$200 for LHS students and \$100 for HMS students who participate in athletics, clubs or activities in which the district expends funds.
- The fee will be charged once per school year, regardless of the number of activities in which a student participates. For example: participation in 3 sports and 3 activities = \$200 at LHS
- The district will still be responsible for all necessary equipment.
- Please note that the student activity fee is separate from any voluntary fundraising done by parent groups. While the district budget covers the basic essential equipment for each activity, parent fundraising provides supplemental resources that can be used for equipment that goes beyond basic essential need, as well as for group celebrations, extra supplies and any other materials that enhance the activity for our students.
